### ЗАЯВЛЕНИЕ /APPLICATION

I humbly request that the Department of Education grant me the permission to resume my studies after my academic leave which is due to end on the 11/10/2022 . I have been on a two years acadmic leave since I got admission into Innopolis University. This was due to the covid19 pandemic and travel restriction which I felt prevented me from getting a nice experience as a fresher. Now that travel restrictions are over, I will be arriving in Innopolis hopefully within 25/09/2022 and 6/10/2022 depending on the speed of my travel process.

I also like to plead that my previous grades are excluded and that Department of Education consider a way I can have a fair opportunity to get a good grade. During the online classes I did, I faced a lot of challenges that prevented me from getting better grades. Bad network and poor electricity (I missed several minutes in classes when network freezes and also absents from some Lab especially Programming labs) was a great disadvantage to my study as a fresher.

I will be glad to see this application successfully positively granted. Please also consider my grade request, thank you very much.
