### ЗАЯВЛЕНИЕ /APPLICATION

I kindly request for new period of academic leave due to financial reasons, bad network, electricity and closed borders between my country Nigeria and Russia for the period of 12.10.2021 to 11.10.2022.

I once took an academic leave last year hoping that by today flights from Nigeria to Russia would be open. Below are the problems I may face if my academic leave isn't granted.

Financial crisis: Aside from the flight restriction from Nigeria to Russia. Facing data cost for online classes for a long period of time will be very expensive.

Online classes/ Bad network: Last year I faced challenges with the professor's speech faster than what he is writing. He would have finished what he was saying and about to move to the next explanation before the writings appear on the screen.

Electricity: It all depends on the location in Nigeria. In my area I get power supply an average of 15 hours a day and most times it is at Night.

With all this factors that we seriously affect my education, I hope I get considered for another Academic leave hoping that by next year flights from Nigeria to Russia is open.
